AVAILABLE FROM 5 PIECES

LIFETIME WARRANTY

YOUR BEST CHOICE

All products in this brochure are produced in the Netherlands, which makes them unique. **European production** brings many advantages over Asian production:

Ready in 5 working days

Are you in urgent need of business gifts? No problem, your order will be produced in only **5 working days**.

Guaranteed quality

Quality standards in Europe are high compared to those in Asia. As your order will be produced in Europe, we can guarantee quality products. You will have **lifetime warranty** on all USB stick memory chips. You may also expect the best full colour prints, perfectly matching the colours you requested.

Low minimum order quantity

Thanks to production in Europe we are very flexible. You can order any quantity, starting **from only 5 pieces**.

Any logo is possible

All our products can be fully adapted to your wishes. No matter what kind of logo you might have, we can place it on the gift item of your choice. In full colour, laser engraved, or sometimes even both. Your logo will be scratchproof and visible for years!

DESIGNED TO BE PERSONALISED

Our USB sticks can be covered almost entirely by a logo or other message. To achieve this we use **personalisation techniques** specifically selected for our USB sticks.

Full colour print with doming

Your logo leaves the biggest impression when printed in full colour. Thanks to our digital printing technique we can print a logo in any colour, without extra charges.

Each print is covered with a scratchproof acrylic layer (doming). This doming makes the print stand out even more and keeps it **perfectly visible** even when used frequently.

Direct full colour print

This personalisation technique enables us to print razor-sharp, full colour images directly onto our products,

creating **infinite opportunities** for personalising USB sticks. These prints are scratchproof and will remain visible for years.

Laser engraving

There are many reasons to choose personalisation by laser engraving. It gives USB sticks a stylish look, the engravings are **indelible** and it is the most economical personalisation technique. Our precise laser engraving equipment always creates perfect reproductions of a logo or text.

INDIVIDUAL PERSONALISATION

Are you in need of **a personal gift**? We can produce series of USB sticks with individual prints or engravings.

A USB stick is much more interesting to receive when it is custom made. Moreover, USB sticks will also be less likely to get lost when they have a name or email address on them. Individual personalisation is available for all models, for any order quantity starting at 5 pieces.

Most of our USB sticks can be personalised on both sides. This creates the possibility to print or engrave an individual text or image on one side, and your logo on the other side. For some models even the gift box can be personalised with an individual print.

Original

Versatile and colourful

The Original has a strong body made of anodised aluminium. It is available in five colours and both sides can be personalised, making this our most versatile USB stick.

Data on stick, irremovable data, autorun

USB EXTRAS

Data on stick

A USB stick is not only a nice gift; it is also an interesting **marketing tool**. We can for example upload documentation, such as a catalogue or company presentation, onto the USB sticks. On request these files can be made autorun or irremovable.

Packaging and accessories

For our USB sticks we have packaging and practical accessories available, like a **gift box**, a **key ring** or a **phone string**.

Personalised Hard Disk

Luxurious and innovative

An external hard disk is a very original and useful business gift. Our personalised hard disk has a solid housing finished with black PU leather and can be personalised with a full colour doming sticker on one side.

The innovative business gift

External hard disks are luxurious and innovative business gifts. Not only will you surprise your partners or employees with this **original gift**, thanks to high storage capacities our hard disks are very useful as well. They can be used to make a backup of an entire hard disk for instance, or to easily take along data.

Our hard disks can be personalised with a stylish **full colour print** with acrylic layer (doming). This print can have various shapes and sizes and even individual designs are possible.

SPECIFICATIONS

Hard disk	2.5" 5400 rpm SATA II
Dimensions	127 x 79 x 13,5 mm
Capacity	up to 1 TB
Technology	USB 2.0
Available packaging	HDD Case

Doming Stickers

Outstanding and lasting

The glossy, 3-dimensional effect of our doming stickers will turn any logo or brand name into an eye catcher on all products. They are now available separately, in various shapes and sizes.

Scratchproof full colour stickers with your logo

By using doming stickers you can give every gift item a **personal touch**. They are also very suitable for labeled or branded products. For example, doming stickers are often used by the automotive and computer industry and manufacturers of household equipment.

Whichever way they will be used, doming stickers will add **extra flair** to your products.

The benefits of doming stickers

- Perfect exposure of your logo or brand
- Weather, wind and UV resistant
- Guaranteed scratch proof
- Easy to apply

Our doming stickers are available in almost all shapes and sizes. Also, special backgrounds such as glitter and metallic foils are available.

As usual, your order will be produced in only 5 working days. The minimum order quantity is **25 pieces**.
